GUITARS

# The Legend Begins...

Canada's veteran guitar designer, Glenn McDougall, was commissioned to design this professional instrument. Built for performance, our guitars offer a unique combination of rich tone and easy playability at extremely competitive prices.

Our original designs and innovative engineering are key features of our solid-body guitars. We also offer a wide range of color choice in transparent, solid and metallic finishes. Deakon Roads custom

pickups, bridges and other components are manufactured in our plant to maintain quality control.

# Specs...
